

Poster Program:

as at 10 October 2017

Paper #	Paper title	Presenter	Poster board #
ADR			
201	Bleeding-related hospital admissions and 30-day readmissions with dabigatran versus warfarin in patients with nonvalvular atrial fibrillation	Wallis Lau, The University of Hong Kong, Hong Kong	142
202	'Real-world' hemorrhagic rates for antithrombotics using a self-controlled case series design	Prasad Nishtala, University of Otago, New Zealand	143
203	High-risk non-steroidal anti-inflammatory drug (NSAID) prescribing in primary care: Results from a developing nation	Mei Fong Lim, Ministry of Health, Malaysia	144
204	Non-steroidal anti-inflammatory drugs and risk of first hospitalization for heart failure: A population-based case-crossover study	Sung-Po Huang, National Taiwan University, Taiwan	145
205	Outcomes of re-exposure to iodinated contrast media in patients with moderate to severe iodinated contrast media hypersensitivity reactions	Dong-Yoon Kang, Seoul National University Hospital, South Korea; Min-Gyu Kang, Chungbuk National University Hospital, Korea	2
206	Statin use and risk of new-onset diabetes in hypertensive patients: A population-based retrospective cohort study in mainland China	Hailong Li and Siyan Zhan, Peking University Health Science Center, China;	146
207	Selective prescribing and estimation of risks and benefits of statins in aged care services	Jenni Ilomaki, Monash University, Australia	147
208	Effects of cilostazol and renin-angiotensin-aldosterone system (RAS) blockers on the progression of renal disease in diabetic patients	Sukhyang Lee, Ajou University, South Korea	148
209	Impacts of FDA safety warning and introduction of new class medications on treatment outcomes in patients with type 2 diabetes	Kai-Cheng Chang, Linkou Chang Gung Memorial Hospital, Taiwan	149
210	Development and validation of algorithms to identify drug-induced anaphylaxis in the Beijing pharmacovigilance database	Ying Zhao, Peking University Health Science Center, China	3
211	Comparing strategies to monitor for a potential association between teriparatide and adult osteosarcoma	Kirk Midkiff, RTI Health Solutions, United States	150
212	Differences in clinical features according to the causative drugs in patients with dress syndrome	Da Woon Sim, Chonnam National Hospital, South Korea	151
213	Use of epinephrine in patients with drug-induced anaphylaxis: An analysis of the Beijing pharmacovigilance database	Ying Zhao, Peking University Health Science Center, China	152
214	Sequence symmetry analysis of pharmaceutical benefits scheme data for signal detection in the setting of therapeutic goods regulation in Australia	Clare Behm, Therapeutic Guidelines, Department of Health, Australia	153
215	Liver injury in the treatment of tuberculosis (TB): Evidence from a tertiary hospital in china	Minfu He, Janssen Research and Development, China	4
216	The long-term use of biologics in Hong Kong patients	Kenneth Man, University of Hong Kong, Hong Kong	5
217	Assessment of drug – drug interactions in prescriptions received by renally challenged patients	Mary Shanthi, Vikas College of Pharmaceutical Sciences, India	6
218	Incidence of adverse drug reactions of oral hypoglycemic agents in a tertiary care hospital	Kiron Sadanandan, Academy of Pharmaceutical Sciences, India	7
219	Risperidone exposure and the risk of osteoporosis-related fractures	Eric Clapham, Uppsala University, Sweden	8
220	Risk of intussusception after rotavirus vaccination: A systematic review and meta-analysis	Yifan Zhou, Peking University, China	9
221	Assessment of adverse events following immunization following pentavalent vaccination to children in Warangal City India	Prashanth Palakurthy, Talla Padmavathi College of Pharmacy, India	10
222	Live vaccine administration to immunocompromised patients: Use of active surveillance data to enhance vaccine signal investigation	Angela Gowland, Therapeutic Goods Administration, Australia	11
223	Gender differences in hypoglycemic drug-induced acute myocardial infarction	Shi Heng Wang, China Medical University, Taiwan	12
224	Pattern of potential drug-drug interactions and adverse drug interactions associated with pharmacotherapy in patients with cardiac arrhythmias	Sri Harsha Chalasani, M S Ramaiah University of Applied Sciences, India	13
225	Profile of adverse drug reactions in neurology wards: Prevalence, preventability and reporting	Maheswari Eswaran, Ramaiah University of Applied Sciences, India	14

Poster Program:

as at 10 October 2017

Paper #	Paper title	Presenter	Poster board #
ADR			
226	Reports of adverse events associated with intravenous immunoglobulin	Pakawadee Sriphiromya, Ministry of Public Health, Thailand	15
227	A systematic review on the safety and efficacy of naltrexone for amphetamine and methamphetamine users	Lam Lam, The University of Hong Kong, China	16
228	Association of CD4+ T cell counts after HAART and its correlation with opportunistic infections in Indian HIV patients	Rajesh Radhakrishnan, Manipal University, India	17
229	Antipsychotics use and risk of ischemic stroke in atrial fibrillation patients with dementia	Su Yong Ow, National Taiwan University, Taiwan	18
ADR-reporting			
230	Impact of educational intervention to motivate the community pharmacists towards adverse drug reaction reporting and monitoring in south Indian district	Srikanth Siddalinge Gowda, M S Ramaiah University of Applied Sciences, India	19
232	Improving spontaneous adverse drug reaction reporting among healthcare professionals: A systematic review	Walter-Rodney Nagumo, The University of Sheffield, United Kingdom	21
Audit			
233	A cross section study on prevalence of neuro-psychiatric disorders and quality of life in post stroke patients	Kiron Sadanandan, Academy of Pharmaceutical Sciences, India	22
234	Parenteral nutrition utilization at a bone marrow transplantation hospital	Kashif Ali Kandhro, Dow University of Health Sciences, Pakistan	23
235	Inflammatory bowel disease in Australia: Patterns in use and costs of medicines	Christine Staatz, The University of Queensland, Australia	24
236	Medication-use evaluation at a state-of-the-art neonatal intensive care unit of a south Indian tertiary care hospital	Krishna Undela, JSS University, India	25
237	The effectiveness and safety of febuxostat in chronic kidney disease patients with hyperuricemia or gout	Chien-Huei Huang, National Cheng Kung University Hospital, Taiwan	26
238	Retrospective evaluation of the clinical dose of vancomycin using different renal filament filtration rate formula	Pei-Ling Chiang, Chi Mei Medical Center, Taiwan	27
239	Evaluation of non-selective beta-blocker use for primary and secondary prophylaxis of variceal haemorrhage in decompensated cirrhosis	Kelly Hayward, Princess Alexandra Hospital, Australia	28
240	Use of hormone therapy for menopause in Australia over two decades: Does the change in evidence matter?	Rifani Bhakti Natari, The University of Queensland, Australia	29
242	Assessment of treatment pattern and outcome in patients with cerebral venous thrombosis, a relatively uncommon type of stroke	Varsha Prabhu, Research Scholar, India	31
243	Assessment of prevalence of primary headaches and associated risk factors amongst university residents: A prospective observational questionnaire based study	Sri Harsha Chalasani, M S Ramaiah University of Applied Sciences, India	32
244	Prevalence and management of anemia in chronic kidney disease patients	Prasanna Kumar, Manipal University, India	33
245	Efficacy of antiepileptic drugs for partial onset seizures and generalized onset tonic-clonic seizures: An overview of Cochrane reviews	Ting Cai, Peking University, China	34
246	Using spatial analysis to explore the factors related to fatality among patients with ischemic stroke in Taiwan	Yen-Chun Lin and Ching-Lan Cheng, National Cheng Kung University, Taiwan	35
247	Rational use of oral muscle relaxants in community hospitals and primary care hospitals: Results from nationwide health database	Penkarn Kanjanarat, Chiang Mai University, Thailand	36
248	Assessment of rational drug use in patient with non-communicable diseases in public hospitals based on rational drug use hospital indicators	Penkarn Kanjanarat, Chiang Mai University, Thailand	37
249	Socio-demographic profile, patterns and outcomes of poisoning cases in a tertiary care teaching hospital	Abhimanyu Prashar, JSS University, India	38
250	Factors associated with non-steroidal anti-inflammatory drugs use: A community-based survey	Pongpan Suriyong, Burapha University, Thailand	39

Poster Program:

as at 10 October 2017

Paper #	Paper title	Presenter	Poster board #
Drug-related problems			
251	Assessment of patients admitted for drug-related problems in cancer chemotherapy	Reshma Susan Reji, Manipal University, India	40
252	Consequences of drug-related problems amongst the patients with polypharmacy	Maheswari Eswaran, Ramaiah University of Applied Sciences, India	41
253	Initiation and evaluation of home medicines review program in Mysuru, a south Indian city	Ramesh Adepu, Vikas College of Pharmaceutical Sciences, India	42
Adherence			
254	The effectiveness of accurate drug usage program by Thai traditional music toward drug knowledge and self-efficacy of Thai diabetic patients	Vanida Prasert, Meiji Pharmaceutical University, Japan	43
255	A systematic review and meta-analysis of adherence and persistence among older (aged ≥ 65 years) statin users	Richard Ofori-Asenso, Monash University, Australia	44
256	Risk indicators of non-adherence and discontinuation among older statin users: A meta-analysis	Richard Ofori-Asenso, Monash University, Australia	45
257	Self-report of continued medication use by patients after a stroke	Judith Coombes, The University of Queensland, Australia	46
258	Factors affecting non-adherence to anti-hypertensive drugs among hypertensive individuals in rural areas of Udupi Taluk: A cross-sectional study	Teena Joseph Chacko, Manipal University, India	47
259	Study on medication adherence behavior and quality of life in elderly diabetic and hypertension patients in a tertiary care hospital	Katta Venkatesh Ramanath, SAC College of Pharmacy, India	48
260	Pharmacoepidemiology of arterial hypertension in East Kazakhstan: Analysis of patient compliance to treatment	Aigerim Musina, Semey State Medical University, Kazakhstan	49
261	Assessment of compliance to oral iron supplements amongst iron deficiency anaemic patients	Saraswathy Raja Lekshmi, Ramaiah University of Applied Sciences, India	50
262	Prevalence and determinants of inadequate use of folic acid supplementation in Japanese pregnant women: The Japan environment and children's study	Taku Obara, Tohoku University, Japan	51
263	Evaluation of alcoholism and smoking habits and its effects on adherence to HAART in people living with HIV in India	Rajesh Radhakrishnan, Manipal University, India	52
Patient education			
264	Impact of patient education on interdialytic weight gain and blood pressure in patients undergoing Hemodialysis	Uday Venkat Mateti, Nitte University, India	53
265	Development, validation and user-testing of patient information leaflets on diabetes and hypertension	Santosh Vora, Srinivas College of Pharmacy, India	54
266	Antidepressants - the unanswered questions. Analysis of a consumer medicines call centre in Australia	Samantha Hollingworth, The University of Queensland, Australia	55
Medication Safety			
267	Using electronic dispensing board reminder system to increase the dispensing accuracy in Taiwan	Hui-Yu Chen, Linkou Chang Gung Memorial Hospital, Taiwan	56
268	Analysis of non-timing administration errors detected by bar-code medication administration system: Evidence from a medical center in Taiwan	Hui-Yu Chen, Linkou Chang Gung Memorial Hospital, Taiwan	57
269	Workloads of pharmacists and the performances of pharmaceutical cares in Taiwan	Shih-Chieh Shao, Chang Gung Memorial Hospital, Taiwan	58
270	Misadventures in methotrexate dosing	Andrew Case, Therapeutic Goods Administration, Australia	59
271	Imputation of medication errors: Assessment of medication errors in a tertiary care teaching hospital	Sri Harsha Chalasani, M S Ramaiah University of Applied Sciences, India	60
Misuse			
272	A study of usage pattern of prescription medications dispensed over the counter (OTC) in community settings of Mysuru City, India	Ambed Mishra, Rajiv Gandhi University of Health Sciences, India	61
273	Negative outcomes associated with extramedical use of prescription opioid analgesics in Australia: A scoping review	Samanta Lalic, Monash University, Australia	62

Poster Program:

as at 10 October 2017

Paper #	Paper title	Presenter	Poster board #
Cardiovascular			
275	Estimation of cardio-metabolic risk prediction profile in population without known cardiovascular and metabolic diseases in Surat district	Bhavin Vyas, Maliba Pharmacy College, India	64
276	Utilisation and impact of the 'drug' in drug-eluting stents	Nicole Pratt, University of South Australia, Australia	65
277	The proliferation of fixed dose combinations (FDCS) of cardiovascular medicines in Australia	Louise Bartlett, Department of Health, Australia	66
278	Drug utilisation evaluation of antiarrhythmic drugs in patients with atrial fibrillation	Saraswathy Raja Lekshmi, Ramaiah University of Applied Sciences, India	67
279	Changes in cardiovascular medication use in long-term care facilities in Finland over an eight-year period.	Natali Jokanovic, Monash University, Australia	68
280	Lipid management in primary care using MedicineInsight data	Natalie Raffoul, NPS MedicineWise, Australia	69
Statins			
281	Statin induced cataract in cardiovascular patients: A retrospective cohort study of a tertiary healthcare facility	Sonal Sekhar Miraj, Manipal University, India	70
282	Effectiveness of generic versus branded rosuvastatin for treatment of dyslipidemia at a hospital in southern Taiwan	Chih-Jen Cheng, Kaohsiung Veterans General Hospital, Taiwan	71
Antithrombotics			
283	Occurrence, causes, and outcome after switching from ticagrelor to clopidogrel in real world: Focused on ticagrelor-related dyspnea	Yiming Hua, Chi-Mei Medical Center, Taiwan	72
284	Analysis of warfarin usage and INR control in atrial fibrillation: A retrospective study	Florence James, Manipal University, India	73
285	Evaluation of appropriate use of anti-coagulants in patients with atrial fibrillation	Saraswathy Raja Lekshmi, Ramaiah University of Applied Sciences, India	74
286	Comparison of antiplatelet in preventing major adverse cardiovascular events among male patients with coronary heart disease after percutaneous coronary intervention	Hendra Nuramin, Fakultas Kedokteran - Universitas Lambung Mangkurat, Indonesia	75
Diabetes			
287	Comparisons of diabetic retinopathy events associated with glucose-lowering drugs in T2DM patients: A systematic review and network meta-analysis	Guangyao Li, Peking University, China	76
288	Metformin-associated risk of liver injury in patients with type 2 diabetes mellitus: A cohort study	Yang Xu, Peking University, China	77
289	Drug utilization of anti-diabetic medications in patients with type 2 diabetes mellitus from 2010-2017 in Yinzhou, China	Yixin Sun, Peking University, China	78
290	Systematic review of studies on type 2 diabetes mellitus case definitions from Taiwan national health insurance research databases	Yi-Chien Sung, Linkou Chang Gung Memorial Hospital, Taiwan	79
291	The impact of dipeptidyl peptidase-4 inhibitors (dpp-4i) on depression among type 2 diabetes mellitus (T2DM): A systematic review and network meta-analysis	Yang Jun, Peking University, China	80
292	Utilization of sodium-glucose cotransporter 2 inhibitors in patients with type 2 diabetes mellitus: Evidence from a medical center in Taiwan	Kai-Cheng Chang, Linkou Chang Gung Memorial Hospital, Taiwan	81
293	Impact of dipeptidyl peptidase-4 inhibitors (dpp-4i) on headache and dizziness among type 2 diabetes: A systematic review and network meta-analysis	Le Gao, Peking University, China	82
294	Impact of glucagon-like peptide-1 receptor agonists (glp-1ras) on hypoglycemia among type 2 diabetes: A systematic review and network meta-analysis	Le Gao, Peking University, China	83
295	SGLT2 inhibitors and diabetic ketoacidosis - review of product information and comparison with American college of endocrinology position statement	Genevieve Gabb, Royal Adelaide Hospital, Australia	84
Case Study			
296	Pioglitazone treatment on non-alcoholic fatty liver disease: Case description	Hsiang Ju Huang, Chi Mei Medical Center, Taiwan	85

Poster Program:

as at 10 October 2017

Paper #	Paper title	Presenter	Poster board #
Elderly care			
297	An Australian perspective on medication-related quality of care (MRQOC) in residential aged care	Jodie Hillen, University of South Australia, Australia	86
298	Are medications and prescribing patterns associated with hospitalisation risks in residents of aged care facilities? A systematic review	Kate Wang, Monash University, Australia	87
299	Are medications associated with fall-related hospital admissions from residential aged care facilities? A case-control study	Tali Ryan-Atwood, Monash University, Australia	88
300	The association between polypharmacy and the incidence of falls, fractures and weight loss in Australian residential aged care facilities	Jenni Ilomaki, Monash University, Australia	89
301	Development and implementation of three strategies to address polypharmacy in residential aged care services	Leonie Picton, Monash University, Australia	90
302	What we know about the association between frailty and medicines use among community-dwelling older people: A literature review	Imaina Widagdo, University of South Australia, Australia	91
303	Development and validation of an implicit tool to simplify medication regimens in residential aged care	Esa Chen, Monash University, Australia	92
Hepatitis C			
304	Rapid virological responses of direct-acting antiviral agents in chronic hepatitis c patients in Taiwan	Sian-De Liu, Linkou Chang Gung Memorial Hospital, Taiwan	93
305	Budget impact and cost-effectiveness analyses of direct-acting antivirals for chronic hepatitis C virus infection in Hong Kong	Xue Li, The University of Hong Kong, Hong Kong	94
Proton Pump Inhibitors			
306	Proton pump inhibitor (PPI) utilization pattern in US, UK, and Japan: A cross-national drug study	Ting Zhang, Johnson & Johnson, China	95
307	The association between proton pump inhibitors and myocardial infarction: A self-controlled case series study	Angel YS Wong, The University of Hong Kong, Hong Kong	96
308	Retrospective assessment of the influence of proton pump inhibitors on the patient renal function	Tsung-Hsien Huang, Chi Mei Medical Center, Taiwan	97
Cancer care			
309	Evaluation of the acute biochemical changes and incidence of infections associated with chop with or without rituximab in DLBCL patients	Kashif Ali Kandhro, Dow University of Health Sciences, Pakistan	98
310	Design considerations for developing smartphone app-based side effect monitoring systems for patients taking oral anticancer medications	Eskinder Eshetu Ali, National University of Singapore, Singapore	99
311	Risk factors of treatment-related peripheral neuropathy in patients with multiple myeloma	Jia-Shan Chou, National Taiwan University, Taiwan	100
312	Comparison of efficacies between Gefitinib and Erlotinib in the treatment of EGFR-mutated NSCLC in Macau – a retrospective analysis	Pui I Chao, Centro Hospitalar Conde De São Januário De Macau, China	101
313	Application of state-space model to terms questionnaires' results	Tatsuya Takagi, Osaka University, Japan	102
314	Development and evaluation of onconurse practice- a smartphone application for oncology nurses	Reena Joseph Chacko, Department of Pharmacy Practice, India	103
315	Role of clinical pharmacist in rational usage of anti-cancer drugs in patients with lung cancer	Aakanksha Sharma, JSS University, India	104
316	Chemotherapy utilization among NSCLC patients after first-/second-line tyrosine kinase inhibitor treatment failure: Findings from nationwide data in Taiwan	Jen-Yu (Amy) Chang, National Taiwan University, Taiwan	105
317	Alcohol intake, gene polymorphisms of alcohol metabolizing enzymes and the risk of colorectal cancer	Yi An Wu, National Taiwan University, Taiwan	106
318	Evaluation of treatment patterns and resulting utility in patients of head & neck cancers under private payment and government scheme	Avinash Khadela, Maliba Pharmacy College, India	107
319	Drug related problems experienced by cancer patients undergoing cancer	Harminder Singh, Baba Farid University of Health Sciences, India	108
320	Detection of HBV, HCV and incidence of febrile neutropenia associated with chop with or without rituximab in DLBCL treated patients	Kashif Ali Kandhro, Dow University of Health Sciences, Pakistan	109

Poster Program:

as at 10 October 2017

Paper #	Paper title	Presenter	Poster board #
Anti-infectives			
322	Usage of anti-infectives at a neonatal intensive care unit of a south Indian tertiary care hospital	Krishna Undela, JSS University, India	111
323	Predisposing factors, incidence and severity assessment of antibiotic-induced hypersensitivity reactions in inpatients of a tertiary care hospital in India	Ambed Mishra, Rajiv Gandhi University of Health Sciences, India	112
324	Trends of antibiotic consumption after the implementation of a 3-year national antibiotic stewardship action plan in China	Xiaodong Guan, Peking University, China	113
325	Antibiotic use in China after the national antibiotic stewardship program	Houyu Zhao, Peking University, China	114
326	Sensitivity and usage patterns of reserved antibiotics in the intensive care unit of a tertiary care teaching hospital	Sreedharan Nair, Manipal University, India	115
327	Antibiotic prescription guide as a tool for rational use of medicines in dental practice: Simple but powerful	Farsai Chanjaruporn, Mahidol University, Thailand	116
328	Prescribing pattern of antibiotics for acinetobacter infection therapy in a tertiary care hospital	Kavitha Elsa Varghese, Manipal University, India	117
329	A prospective study on adverse drug reactions associated with antibiotics usage in a tertiary care teaching hospital	Prashanth Palakurthy, Talla Padmavathi College of Pharmacy, India	118
330	Optimizing antibiotic dosing by clinical pharmacist in renal impairment	Rajesh Vilakkathala, Manipal College of Pharmaceutical Sciences, India	119
331	Burden of pneumonia in Hong Kong adults	Joseph Blais, The University of Hong Kong, Hong Kong	120
Antipsychotics			
332	Patterns of antipsychotic use among patients with schizophrenia: A Japan medical data center health insurance claims database analysis	Darmendra Ramcharran, Janssen Research and Development Global Epidemiology, United States	121
333	Evaluating the effect of the veterans' mates program on the prescribing of antipsychotics in the elderly	Jemisha Apajee, University of South Australia, Australia	122
334	Prescribing trend of antipsychotic in Hong Kong: From 2004 to 2014	Shijian Lao, The University of Hong Kong, Hong Kong	123
335	The association between prescribed atypical antipsychotic drugs and hyperglycemic diabetic complications	Nisrine Haddad, University of Ottawa, Canada	124
336	Incidence of clozapine induced myocarditis among people treated in a state-wide mental health service: A multicentre study protocol	Jessica Dawson, Monash University, Australia	125
Traditional medicines			
337	The effect of pomegranate on oxidative stress and systemic inflammation in patients with hemodialysis: A systematic review and meta-analysis	Piyameth Dilokthornsakul, Naresuan University, Thailand	126
338	The clinical efficacy of Sacha Inchi on lipid profile: A systematic review	Piyameth Dilokthornsakul, Naresuan University, Thailand	127
Methods			
340	Evaluation of underlying dose-effect as a source of heterogeneity in meta-analyses: A simulation study of bayesian hierarchical network meta-analysis models	Yang Jun, Peking University, China	129
341	Prescription data topic model using latent dirichlet allocation	Lin Zhuo, Peking University, China	130
342	Validity of electronic hospital discharge prescriptions as a source of medication data for pharmacoepidemiological research	Laura Fanning, Monash University, Australia	131
343	International pharmaceutical informatics initiative to assess treatment use and outcomes across countries: Report of progress	Gang Fang, University of North Carolina at Chapel Hill, United States	132
344	Comparison of various severity assessment scoring systems in patients with sepsis	Vijayanarayana Kunhikatta, Manipal University, India	133
345	G-estimation of structural nested mean models for competing risks data using pseudo-observations	Shiro Tanaka, Graduate School of Medicine Kyoto University, Japan	134

Poster Program:

as at 10 October 2017

Paper #	Paper title	Presenter	Poster board #
Methods			
346	Drug utilization studies and the use of defined daily dose classification system in the who-searo region: A systematic review	Manthan Mehta, Topiwala National Medical College, India	135
347	Identifying barriers and priority areas for building workforce capacity in pharmacoepidemiology research in Australia	Derrick Lopez, The University of Western Australia, Australia	136
Policy			
348	Research on the availability and affordability of anti-HIV drug in China	Jing Chen, Guoxu Wei and Lunwen Shi, Peking University, China	137
349	Pharmacist role in managing pharmacy unit related to Indonesian standard of minimum services in public hospital in Bandung	Angga Kautsar, Universitas Padjadjaran, Indonesia	138
350	Influence of government regulation and deregulation on the price of anticancer drugs in China	Mingchun Yang, Peking University, China	139
351	Will the generic entry reduce the price of brand-name drugs? — a case study in China	Ye Tian, Peking University, China	140
352	A study on approval lag of innovative new drug in China	Jing Chen, Peking University, China	141
